- Linux (advanced administration)
- Windows Server (AD, DNS, DHCP)
- VPN, Firewalls & Proxy
- Docker
- VMware / VirtualBox

LANGUAGES

Spanish

English

- Spanish — Native
- Cambridge B2 First Certificate

ABOUT ME

I am a 19-year-old student from Málaga, currently in my second year of ASIR, specialising in systems administration, networking and cybersecurity. I work with Linux and Windows Server environments, Docker, and virtualisation using VMware and VirtualBox, and I have a solid foundation in networking and security reinforced through Cisco courses. I consider myself a problem-solver, proactive and quick to adapt. I am looking for an internship or junior IT position where I can keep growing and contribute from day one.

WORK EXPERIENCE

IT Systems Intern

TDK ELECTRONICS | FEBRUARY 2025 - MARCH 2025

- Resolved hardware and software incidents using a ticketing system.
- Managed user accounts and permissions in Active Directory.
- Configured and diagnosed network incidents.
- Provided on-site technical support to end users.

Camp Counsellor (USA)

YMCA CAMP SEA GULL | MAY 2025 - SEPTEMBER 2025

- High-quality supervision and support of children and teenagers in an international environment.
- Recognised for leadership, responsibility and positive attitude.
- Developed strong communication and interpersonal skills with diverse groups.
- Strengthened English level through full immersion.
- Obtained US-valid Lifeguard and First Aid certifications.
